

MAKING YOUR ILLUSTRATOR FILES WEB READY:

You will need to save your .ai file as a .PNG and a thumbnail.png (optional)

SAVE THESE FILES IN YOUR WEBFOLDER/IMAGES.

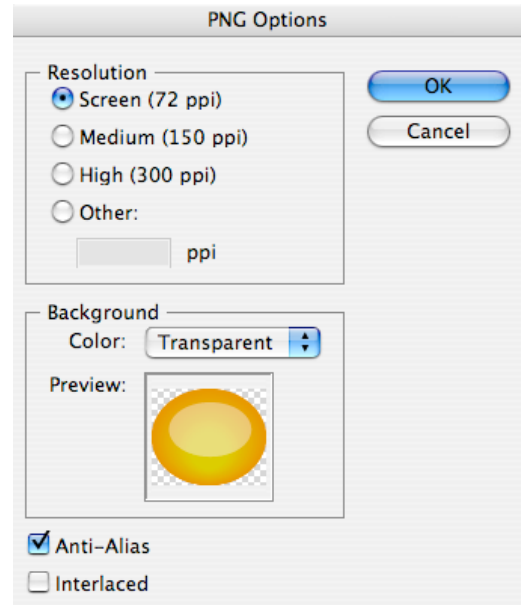

- Illustrator = File → open
- File → Document setup → Edit Artboard (Pull in handles to crop)
- File → SAVE FOR WEB AND DEVICES (PNG-24; 72 ppi; transparent, if desired)
- OK

Resize for thumbnails (optional).

USE **PHOTOSHOP:**

- File → Open (name.png)
- Modify → Image size
- File → SAVE AS (thumbnail.png)

(these .png files **MUST BE SAVED IN xxwebpage/images**)

UPDATING YOUR WEBSITE for Illustrator:

Now - update your Illustrator webpage in the same way you created your Photoshop Web page.

In Dreamweaver

File → Open → Illustrator.html

Insert → Image(s) →

LINK thumbnails to larger images (optional).

Done 😊
